Quilt of Belonging

Thursday May 15th 2025

Focused on themes of belonging, diversity and a sense of community, learn about world cultures through textile art.

Projects, crafts and games are available for all grade levels.

A teacher's guide outlines how the Quilt of Belonging is a resource for curricula, including social studies, language and the arts.

A Place for All, from K to 12 & Beyond

This collaborative textile art piece spans 120 feet and is a collection of 263 blocks, each made by an Indigenous person or immigrant to Canada.

The Quilt of Belonging recognizes Canada's diversity and celebrates our common humanity while promoting harmony and compassion among people.

Completed at the turn of the millennium, it was discovered that Canada has an immigrant from every country in the world, truly a place for all.
